

## Let's Work Together to Keep Moriarty Litter Free!

**Spring time in New Mexico means warmer weather,  
longer days, and those spring winds!**

Improperly contained waste is a major cause of roadside litter in Moriarty and Torrance County. Bagging all waste in your trash bins and properly tarping your trash load prior to transport helps reduce roadside litter caused by blowing trash.

**WE ENCOURAGE EVERYONE TO HELP REDUCE ROADSIDE LITTER BY  
BAGGING ALL TRASH THAT IS PLACED IN YOUR CARTS OR COMMERCIAL BINS.**

=

## BAG AND TIE SO TRASH WON'T FLY!

**TOGETHER WE CAN MAKE A DIFFERENCE!**

**IMPORTANT! ALL LOADS MUST BE PROPERLY TARPED!**

To prevent roadside litter, all loads accepted at the Torrance County Convenience Stations or the Estancia Valley Regional Landfill must be properly tarped or secured in accordance with local solid waste ordinances..

### FOR BEST SERVICE

- **Have your cart out by 7 a.m.** on your collection day. Please allow 3 feet of space around each cart.
- **Don't overload your cart;** make sure that the lid is able to close securely.
- **BAG and TIE all waste before placing it in the cart.** This prevents blowing trash and unsightly litter.
- **Mark your cart with your address number.**
- **Bad weather delay?** Place your cart out as usual. We will get there as soon as we can.

### HOLIDAY SCHEDULE

#### MEMORIAL DAY

**May 27, 2024**

Service will be delayed by one day during the week immediately following the holiday.

# Spring Cleaning?

Let us help you!

Cleaning up your property and clearing clutter from your home is a great way to improve your surroundings (and your mental health!) However, we all know what a pain it is to haul that trash away, right? Let us do it for you! We have roll off containers that can make this an easy task!

**Call UWS for a quote at (505) 832-9005!**

**We will discuss your project and recommend the container that is perfect for your job.**
